WASHINGTON, Sept. 7.—Presidents of twenty-four international unions embraced in the steel industry will arrive here tomorrow to hold a conference early Tuesday as to whether to call a strike on the United States Steel Corporation. It was learned today that this conference was called prior to the sending of the message by President Gompers and the steel workers' committee to President Wilson asking him to report what success he had achieved toward effecting a conference between the workers' representatives and Judge Gary, of the United States Steel Corporation. In this connection it was stated that the labor leaders considered the steel workers' situation so

President Gompers declined again today to make known the tenor of the President's reply to the steel workers' committee, and it was said at the White House that the President had sent no word there regarding his reply.

Of different theories advanced here today as to the contents of the President's reply the one that was regarded as the most likely one was that the President had suggested to Mr. Gompers that the matter of securing a conference rested between Mr. Gompers and Judge Gary.
